feedback

'Without You' is a stunning pop ballad ... Catchy as a pop song, but also maintaining an air of sophistication, it will be appreciated by younger and older audiences alike " *the ruiner*", **CEO, gigatracks.com**

(live at Acoustic Trip) laura sang with a passionate, powerful voice. Her wonderful smile and expressive eyes captivated the audience. It was a heartfelt, moving performance. Using dynamic changes and a wide vocal range, Laura's voice is even better live than it is on their recordings. They are an act that should play live often, to treat the world to their magical music *paul carosi, station manager, artistlaunch.com*
